Summary

MERN Stack Developer with hands-on experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive user interfaces with React and Tailwind CSS, creating RESTful APIs, implementing authentication systems, and integrating payment gateways. Passionate about scalable application development and continuously learning modern web technologies.

Skills

Languages: JavaScript (ES6+), TypeScript, Java, Python, OOP

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design, Redux, React Query

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Middleware, MVC Architecture

Databases: MongoDB (Mongoose), SQL, PostgreSQL, Firebase Firestore

Tools & Platforms: Git, GitHub, Postman, Axios, Figma, Firebase

Cloud & Integrations: Cloudinary, Multer.js, Razorpay, Stripe API

Projects

Green Cart – Full-Stack Online Grocery Platform | MERN Stack, Razorpay, Cloudinary Apr 2026 – May 2026

- Built a full-stack online grocery platform using the MERN stack and MVC architecture.
- Implemented secure JWT-based authentication and authorization for protected routes and user sessions.
- Integrated Razorpay payment gateway for secure online transactions.
- Used Cloudinary and Multer.js for cloud-based media upload and image management.
- Developed responsive UI components using React.js and Tailwind CSS with Context API state management.
- Created RESTful APIs for product management, cart functionality, and order processing.
- Live Demo: greencart-eta-sage.vercel.app

Restaurant Reservation – Food Ordering App | React, Tailwind CSS, Firebase Jan 2026 – Feb 2026

- Designed and developed a responsive food ordering and restaurant reservation interface using React.js and Tailwind CSS.
- Optimized application state architecture using Context API for efficient component data sharing.
- Integrated Firebase services for backend support and real-time data handling.
- Ensured mobile-first responsive design compatibility across all screen sizes.
- Live Demo: eatigosmartdine.netlify.app

Intellect – Real-Time Interactive Quiz Platform | React, Firebase, Context API Nov 2025 – Dec 2025

- Built a real-time quiz application with dynamic question handling and interactive user experience.
- Used Firebase Firestore for real-time database synchronization and persistent user progress tracking.
- Drove user engagement by engineering gamification features like leaderboards and timed quizzes.
- Applied React Hooks and Context API for efficient state and component management.
- Live Demo: intellect-quiz-app.netlify.app

Certifications

- **SQL Bootcamp – Udemy**
Learned SQL fundamentals including SELECT queries, JOINs, subqueries, and database management concepts.
- **The Ultimate React, JavaScript, MERN – Udemy (Jonas Schmedtmann)**
Built modern React applications using hooks, reusable components, state management, and best practices.

Education

B.Tech in Computer Science Jul 2016 – Jul 2019
Uttarakhand Technical University (DBGI), Dehradun 78%
