Summary

MERN Stack Developer with hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive UIs with React and Tailwind CSS and creating RESTful APIs using Node.js and Express. Familiar with MongoDB, authentication, and state management. Passionate about building scalable applications and continuously learning new technologies.

Skills

Languages: JavaScript (ES6+), Java, Python, Object-Oriented Programming (OOP)

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Responsive Design, Redux, React Query

Backend: Node.js, Express.js, RESTful APIs, JWT Auth, Middleware, Error Handling, MVC Architecture

Databases: MongoDB (Mongoose), SQL, PostgreSQL, Firebase Firestore

Tools & APIs: Git, GitHub, Postman, Axios, Figma, Third-party API Integration

Cloud & Services: Cloudinary, Multer.js (Media Management), Razorpay/Stripe Integration, Firebase

Projects

Green Cart – Full-Stack Online Grocery Platform | MERN Stack, Razorpay, Cloudinary April 2026 – May 2026

- Built a full-stack online grocery application using the MERN stack and MVC architecture
- Engineered secure JWT-based authentication and authorization for user login and protected API routes.
- Integrated Razorpay for payment processing and Cloudinary/Multer.js for cloud media storage.
- Crafted a responsive Tailwind/React interface with streamlined state management via Context API.
- Developed robust RESTful APIs for product management, cart functionality, and order tracking.
- Live Demo: [Link](#)

Restaurant Reservation - Food Ordering App | React, Tailwind CSS, Firebase

Jan 2026 – Feb 2026

- Designed a high-performance food ordering and reservation interface using React and Tailwind CSS for a seamless user experience.
- Leveraged Context API to simplify state handling and eliminate complex prop hierarchies.
- Ensured cross-device compatibility with mobile-first design principles, achieving 100% responsiveness on all screen sizes.
- Live Demo: <https://eatigosmartdine.netlify.app/>

Intellect – Real-time Interactive Quiz | React, Firebase, React Hooks, Context API

Nov 2025 – Dec 2025

- Architected a scalable quiz platform focusing on centralized logic and fluid user interactions.
- Deployed Firebase Firestore for real-time data sync and persistent user progress tracking.
- Enriched the platform with gamification features, including live leaderboards and timed challenges, to maximize user engagement.
- Live Demo: <https://intellect-quiz-app.netlify.app/>

Awards & Certifications

- **SQL Bootcamp – Udemy** Learned SQL fundamentals including SELECT, JOINs, subqueries, and database management. Also worked with MongoDB for NoSQL data handling and backend integration in MERN stack applications.
- **The Ultimate React, JavaScript, MERN – Udemy (Jonas Schmedtmann):** Built modern React applications using hooks, components, state management, and React best practices.

Education

B.Tech in Computer Science

Jul 2016 – Jul 2019

Uttarakhand Technical University (DBGI), Dehradun
